□ IOC and DI Relationship:
(Inversion of control) (Dependency Injection)

IOC: is idea or Principle

DI: is approach/technique to achieve IOC.

Q. So how Spring Framework comes here?

Spring Framework $\rightarrow$ IOC container
[container
(previously
was main)]

IOC container:

1. Create Objects

2. Manage Objects

3. Connects objects together.

[Objects $\rightarrow$ Java code]

[Spring IOC Container $\rightarrow$ Beans]
